

Every transaction has an impact

ecolytiq in a nutshell

The climate action solution from ecolytiq guides banks and financial service providers in channeling consumer demand for sustainability into new business growth. The ecolytiq product suite enriches traditional banking with embedded transaction-based footprinting, personalized climate insights, and access to environmental projects.

This inspires more top of wallet behavior, resulting in more positive environmental impact for banks and their customers. ecolytiq is partnered with leading financial institutions globally, including Visa, Tink, Worldline, Rabobank, and Vancity. ecolytiq is also a member of the Visa Fintech Partner Connect Programme, enabling banks to seamlessly implement comprehensive sustainability strategies.
